ALL BULBS TREATED — READY TO PLANT

Bulbs ordered from this list come to you already treated with a combination fungicide-insecticide. We save you the muss, fuss, time, and money of dipping or soaking bulbs in a disinfectant before planting. When spring comes, all you have to do is open the furrow and plant. We include cultural directions in each order.

TERMS

All shipments are prepaid by us. Will use our judgment as to best method of shipment. No orders for less than \$2.00 please; we must make this request because of the present high cost of labor in preparing and packing orders for shipment. Please remit in full with order. Should you wish to order 100 of any one variety, you may do this at 8 times the 10 rate. Thus, if an item is 10 for 70c, 100 would be \$5.60.

BULB SIZE

Large bulbs are over 1 1/4 inches in diameter, medium from 3/4 inch to 1 1/4 inch, and small bulbs 1/4 inch to 3/4

inch. Please note that these measurements pertain to diameter, and not circumference.

DATE OF SHIPMENT

When you order, please give approximate date you wish to receive your bulbs. Otherwise, we will ship to you early in the spring before planting time.

WHOLESALE LIST

Our wholesale list is available to all who sell blooms or bulbs. Please write for it. Not all varieties on this list are available at wholesale prices.

BULBS FOR CHRISTMAS

Does searching for just that "right" present present a problem? Don't look any further if he or she is a gardener, because a Christmas gift of big beautiful bulbs will hit the spot. If you want us to select the varieties, tell us what you want to spend and leave the rest to us. Sorry we can't gift-wrap them, but we will get them to you in lots of time to put under the tree for the big day.

SMALL AND MINIATURE - TYPE GLADS

These are the little fellows that are so desirable for us in flower arrangements, corsages, wedding work, etc., where a glad. with a larger floret would tend toward the clumsy side. If you haven't tried growing this miniature-type glad, let me urge you to include a few in your next planting. The more you work with them, the more you will like them, and see that they definitely have a place in the "glad" world.
